

The background features a collage of abstract elements: a large cyan shape on the left, a purple shape with a white dot pattern on the right, and a blue shape with a white cross pattern at the bottom left. There are also white wavy lines, a small purple oval, and various dot patterns scattered across the white background.

# Scopes

- Recipe Upload and Editing
- Categorization and Tagging
- Search and Filters
- User Profiles
- Rating and Reviews
- Shopping List Integration
- Meal Planning
- Health Blog
- User Notifications

# Recipe Upload and Editing

Enable users to upload their own recipes with details such as -

- Ingredients
- Steps
- Cooking time
- Difficulty level

Include an editor for users to modify their recipes.

# Categorization and Tagging

Implement a robust categorization system to organize recipes by-

- cuisine
- meal type
- dietary preferences (e.g., vegetarian, vegan)
- Occasion

Allow users to add tags to their recipes for easy searching.

# Search and Filters

Provide a powerful search functionality that allows users to find recipes based on –

- keywords
- ingredients,
- specific criteria

Include filters for –

- dietary restrictions
- cooking time
- difficulty.

# User Profiles

Allow users to create profiles where they can –

- save and manage their favorite recipes
- create a personalized recipe collection
- showcase their own recipes.

# Rating and Reviews

Allow users to –

- rate and review recipes
- Implement a feedback system where users can share their -
  - experiences,
  - suggestions,
  - tips related to a particular recipe

# Shopping List Integration

- Integrate a shopping list feature that automatically generates a list of ingredients from selected recipes.
- Users can then check off items as they shop.

# Meal Planning

Include a meal planning feature that allows users to -

- schedule recipes for specific days
- create weekly or monthly meal plans
- automatically generate shopping lists based on the planned meals.

# Health Blog

The user can write about the –

- Dietary guidelines
- Necessity of exercises
- About seasonal food items
- Healthy cooking techniques
- Interviews and features etc.

# User Notifications

Implement notification features to –

- alert users about new recipes from their favorite contributors
- updates to recipes they have saved
- upcoming meal plan reminders.

Thank You
